By preparing and launching spells the magic table shows how many spell slots you have to launch your spells of 1 â ° level and more above. To launch one of these spells, it is necessary to spend a slot of the level of spell or higher. Complete all the slots of spells spent when you end up a long rest. Prepare the list of spells of magicians who are available for launch. To do it, choose a series of spells of procedure waged by your spell book equal to your intelligence modifier + level of the wizard (minimum of a spell). The spells must be of a level for which you have the cracks of the spells. For example, if you are a 3 -level magician, you have four slots of 1st level spells and two of 2 Â Â Â Â â level. With an intelligence of 16, your list of prepared spells can include six spells of 1 â ° or 2 â â Â °, in any combination, chosen by your spell book. If you prepare the magic missile spell of 1 Â ° level, you can launch it using a level 1 slot â ° or 2 Â Â Â Â â level. Launch the spell does not remove it from your list of prepared spells. You can change your list of prepared spells when you finish a long rest. The preparation of a new list of spells of magician requires the time spent studying your spell book and memorizing the spells and gestures you need to make the spell: at least 1 minute by level of spell for each spell on your list. The intelligence for the spell qualitative is your spellbill for your spells of wizards, as you learn your spells through the dedicated study and memorization. Use your intelligence every time a spell refers to your ability to enchant. Also, use your intelligence modifier when setting the Salvatore DC launch for ereva ereva ived noN . omisetnacni out len omisetnacni'l iah e elautir gat li ah omisetnacni'lleuq es elautir emoc ogam omisetnacni nu eraicnal ioup elautir gnitsac aznegilletni id erotacifidom out li + aznetepmoc id sunob = erotacifidom occatta omisetnacni aznegilletni id erotacifidom out li + aznetepmoc id sunob + 8 = cd avlas omisetnacnI .onu noc occatta id orit nu iaf odnauq e icnal ehc ogam omisetnacni prepared spell. Spell focus you can use an arcane focus (see the section of adventurous tools) as a focus spell for your spells of magicians. Learning spells of the 1st level and more above every time you get a sorceress level, you can add two spells to your choice to your spell book for free. Each of these spells must be of a level for which you have the cracks of the spells, as shown in the magician table. During your adventures, you may find other spells that you can add to your spell book (see the "Your spell book". The spells that add to your spell book as you earn the levels reflect the arcane research that leads us, Just like the intellectual discoveries you had on the nature of the multiverse. You may find other spells during your adventures. You may discover a spell recorded on a parchment in the chest of the wicked magician, for example, or in a dusty tome in an ancient library . Copy of a spell in the book. When you find a 1st level or higher magician, you can add it to your spell book if it is of an spell level that you can prepare and if you can save the time to decipher and copy it. Copy That spell in your spell book entails the reproduction of the basic form of the spell, therefore to decipher the unique notation system used by the magician who wrote it. You have to practice the spell that do not understand the required sounds or gestures, then transcribe it to your spell book using your notation. For each level of the spell, the process takes 2 hours and costs 50 GPs. The cost represents the material components you spend while experimenting with the spell to master it, as well as the fine inks you have to register. Once you spent this time and money, you can prepare the spell out out li icsipac ehc otnemom lad ,elicaf ¹Âip e ecolev ¹Âip am ,imisetnacni ilged orbil out len omisetnacni ovoun nu eraipoc emoc oirporp Ã .imisetnacni ilged orbil out led pukcab id aipoc anu eraf iouv es ,oipmese dA - orbil ortla nu ni imisetnacni ilged orbil out lad omisetnacni nu eraipoc iouP .orbil li eriutitsoS .imisetnacni irtla ilg emoc and already know how to cast the spell. You need spend only 1 hour and 10 gp for each level of the copied spell. If you lose your spellbook, you can use the same procedure to transcribe the spells that you have prepared into a new spellbook. Filling out the remainder of your spellbook requires you to find new spells to do so, as normal. For this reason, many wizards keep backup spellbooks in a safe place. The Book¢ÃÂÂs Appearance. Your spellbook is a unique compilation of spells, with its own decorative flourishes and margin notes. It might be a plain, functional leather volume that you received as a gift from your master, a finely bound gilt-edged tome you found in an ancient library, or even a loose collection of notes scrounged together after you lost your previous spellbook in a mishap. Arcane Recovery You have learned to regain some of your magical energy by studying your spellbook. Once per day when you finish a short rest, you can choose expended spell slots to recover. The spell slots can have a combined level that is equal to or less than half your wizard level (rounded up), and none of the slots can be 6th level or higher. For example, if you¢ÃÂÂre a 4th-level wizard, you can recover up to two levels worth of spell slots. You can recover either a 2nd-level spell slot or two 1st-level spell slots. Arcane Tradition When you reach 2nd level, you choose an arcane tradition, shaping your practice of magic through one of eight schools: Abjuration, Conjuration, Divination, Enchantment, Evocation, Illusion, Necromancy, or Transmutation. The School of Evocation is detailed at the end of the class description, and more choices are available in other sources. Your choice grants you features at 2nd level and again at 6th, 10th, and 14th level. Ability Score Improvement When you reach 4th level, and again at 8th, 12th, 16th, and 19th level, you can increase one ability score of your choice by 2, or you can increase two ability scores of your choice by 1. As normal, increase an ability score above 20 using this feature. Using the optional feats rule, you can forgo taking this feature to take a feat of your choice instead. Spell Mastery At 18th level, you have achieved such mastery over certain spells that you can cast them at will. Choose a 1st-level wizard spell and a 2nd-level wizard spell that are in your spellbook. You can cast those spells at their lowest level without expending a spell slot when you have them prepared. If you want to cast either spell at a higher level, you must expend a spell slot as normal. By spending 8 hours in study, you can exchange one or both of the spells you chose for different spells of the same levels. Signature Spells When you reach 20th level, you gain mastery over two powerful spells and can cast them with little effort. Choose two 3rd-level wizard spells in your spellbook as your signature spells. You always have these spells prepared, they don¢ÃÂÂt count against the number of spells you have prepared, and you can cast each of them once at 3rd level without expending a spell slot. When you do so, you can¢ÃÂÂt do so again until you finish a short or long rest. If you want to cast either spell at a higher level, you must expend a spell slot as normal. Arcane Traditions The study of wizardry is ancient, stretching back to the earliest mortal discoveries of magic. It is firmly established in the worlds of D&D, with various traditions dedicated to its complex study. The most common arcane traditions in the multiverse revolve around the schools of magic. Wizards through the ages have cataloged thousands of spells, grouping them into eight categories called schools, as described in chapter 10. In some places, these traditions are literally schools; a wizard might study at the School of Illusion while another studies across town at the School of Enchantment. In other institutions, the schools are more like academic departments, with rival faculties competing for students and funding.
